

CHATBOT

INTRODUCTION

chatbot for a university can be a helpful tool for users to get quick answers to their questions, access important information and perform various activities.

GOAL

Increase the accessibility to the users, Automate certain tasks, save time and reduce work load on administrative staff.

OBJECTIVES

-  Creating a chatbot that will respond to the user's queries.
-  Creating a chatbot to improve the experience of users, staff, faculty and students, and to make it easier for them to access information
